ELF RACING S33 READY is made up of one third bio-sourced components and has been designed to support your transition to renewable fuels. This new-generation product, containing 10% ethanol (E10), is suitable for 4-stroke turbocharged or naturally-aspirated engines, as well as 2-stroke engines. **ELF RACING S33 READY** does not require any technical engine modification (compatible with hoses, injectors, etc.). This fuel does not contain MTBE. This fuel promotes the reliability and consistency of settings and performance.
Not FIA compliant / Not EN 228 compliant
